PROFILE

Backend Developer with 15+ years in software development. Experienced in building REST APIs, database design, and server-side applications using Spring Boot, Node.js, and PostgreSQL. Strong foundation in business logic implementation from extensive work in insurance claims processing. Proven ability to design scalable backend systems that support mobile and web applications.

TECHNICAL SKILLS

Languages: Java, Python, JavaScript, Kotlin

Frameworks: Spring Boot, Node.js, Express

Databases: PostgreSQL, Firebase, Room

APIs & Protocols: REST, JSON, GeoJSON

Infrastructure: FreeBSD, Linux, Apache, Git

PROFESSIONAL EXPERIENCE

Business Systems Consultant | *Datapro Miami*

Mar 2025 - Aug 2025 | Miami, FL

- Led Jira Service Management implementation with PowerBI integration for reporting
- Designed data flows between Jira and business intelligence tools

Technologies: Jira Service Management, PowerBI, System Integration

AI Workflow Architect / Tech Lead | *Pacífico Seguros*

Nov 2022 - Feb 2025 | Remote

- Designed business rules engines for AI-based claims processing
- Defined inference logic for automated cost validation and tax determination
- Built scalable pipelines integrating image processing, decision logic, and reporting layers

Technologies: AI/ML workflows, business rules engines, process automation, data pipelines

Solutions Architect / Mobile GIS Lead | *Pacífico Seguros*

Jan 2020 - Nov 2022 | Remote

- Designed backend architecture for mobile GIS applications
- Built REST APIs for data synchronization between mobile apps and servers
- Implemented offline-capable systems with automatic data sync

Technologies: REST APIs, GeoJSON, data synchronization, PostgreSQL

Software Development Lead | *Pacífico Seguros*

Jun 2012 - Dec 2019 | Remote

- Designed and deployed internal file server infrastructure using FreeBSD and Apache
- Implemented data processing pipelines using Python for satellite imagery analysis
- Built backend services supporting mobile applications for multiple clients

Technologies: Python, FreeBSD, Apache FTP, data pipelines

BACKEND PROJECTS

BlixSalesApplication - Sales REST API

- Complete backend for sales application built with Java Spring Boot
- PostgreSQL database with proper schema design
- RESTful API endpoints for CRUD operations

GitHub: github.com/betolix/BlixSalesApplication-Backend-Java-SpringBoot

AuthNode - Authentication Service

- Authentication API built with Node.js and PostgreSQL
- Secure user management and session handling

GitHub: github.com/betolix/AuthNode

EDUCATION

Full Stack Software Developer | 4Geeks Academy | 2022 - 2023

Bachelor in Informatic Engineering | Universidad Católica San Pablo | 2000 - 2005
