PROFILE

Senior Android Developer with 10+ years building production mobile applications. Expert in Kotlin and Java with deep experience in modern Android architecture (MVVM, Clean Architecture, Jetpack Compose). Proven track record delivering mission-critical mobile solutions for insurance and agricultural sectors, including offline-capable GIS applications. Strong background in full-stack development enables effective collaboration with backend teams.

TECHNICAL SKILLS

Android: Kotlin, Java, Jetpack Compose, MVVM, Clean Architecture, Room, Retrofit, Hilt, WorkManager, Navigation, Coroutines, Flow

APIs & Services: REST, Firebase, Google Maps API, GPS/Location Services, GeoJSON

Backend: Spring Boot, Node.js, PostgreSQL, Express

Tools: Git, Android Studio, Gradle, JIRA, Agile/Scrum

PROFESSIONAL EXPERIENCE

Business Systems Consultant | *Datapro Miami*

Mar 2025 - Aug 2025 | Miami, FL

- Led Jira Service Management implementation and PowerBI integration for operational reporting

Technologies: Jira Service Management, PowerBI, Business Process Optimization

AI Workflow Architect / Tech Lead | *Pacífico Seguros*

Nov 2022 - Feb 2025 | Remote

- Led AI-driven automation initiatives for insurance claims processing
- Defined business rules for AI-based image processing systems for property claims
- Collaborated with cross-functional teams translating domain knowledge into technical specs

Technologies: AI/ML workflows, business rules engines, process automation

Solutions Architect / Mobile GIS Lead | *Pacífico Seguros*

Jan 2020 - Nov 2022 | Remote

- Built native Android applications for field surveying and crop inspection using Java, Google Maps, and GeoJSON
- Integrated GPS sensors, satellite imagery, and statistical sector mapping for accurate land measurement
- Developed offline-capable data collection with automatic sync to backend systems
- Deployed to production with a team of 5 field inspectors

Technologies: Android (Java), Google Maps API, GeoJSON, Room, Retrofit, GPS/Location Services

Software Development Lead | *Pacífico Seguros*

Jun 2012 - Dec 2019 | Remote

- Led team of 2 developers building mobile crop inspection applications
- Implemented satellite imagery analysis using QGIS and Python for crop identification

Technologies: Python, QGIS, FreeBSD, Apache, Android (Java)

KEY PROJECTS

EcoEats - Modern Android app for eco-friendly recipes

- Built with Kotlin, Jetpack Compose, Clean Architecture, MVVM, Hilt, Room, Firebase
- Demonstrates modern Android development best practices

GitHub: github.com/betolix/EcoEats

Land Survey Platform - Mobile GIS for agricultural insurance

- Production app for field surveying with offline capability and GPS integration
- Google Maps, GeoJSON, Room, Retrofit

EDUCATION

Full Stack Software Developer | 4Geeks Academy | 2022 - 2023

Bachelor in Informatic Engineering | Universidad Católica San Pablo | 2000 - 2005
