PROFILE

Solutions Architect with 15+ years designing and implementing enterprise systems for insurance, mining, and data-driven operations. Experienced in translating business requirements into technical architectures, integrating disparate systems, and leading digital transformation initiatives. Strong track record designing mobile platforms, AI-assisted workflows, and automation pipelines. Currently expanding expertise in DevOps and Data Engineering.

CORE COMPETENCIES

Systems Architecture & Design | Business-to-Technical Translation | Systems Integration | Mobile Platform Architecture | AI Workflow Design | Process Automation | Data Pipelines | Cross-functional Team Leadership

TECHNICAL SKILLS

Languages: Java, Kotlin, Python, JavaScript, Node.js

Platforms: Android, Spring Boot, PostgreSQL, Firebase

Integration: REST APIs, GeoJSON, Jira, PowerBI, Modbus/PLC

GIS/Geospatial: QGIS, Google Maps API, satellite imagery analysis

PROFESSIONAL EXPERIENCE

Business Systems Consultant | *Datapro Miami*

Mar 2025 - Aug 2025 | Miami, FL

- Architected Jira Service Management implementation integrating with PowerBI for operational analytics
- Diagnosed existing system issues and designed optimized workflows

Technologies: Jira Service Management, PowerBI, Systems Integration

AI Workflow Architect / Tech Lead | *Pacífico Seguros*

Nov 2022 - Feb 2025 | Remote

- Architected digital transformation of insurance claims workflows using AI-assisted automation
- Designed integration architecture between internal systems and Lisa InsurTech platform
- Created business rules engines for image classification, cost inference, and tax validation
- Built scalable pipelines integrating image processing, decision logic, and reporting layers

Technologies: AI/ML workflows, business rules engines, systems integration, process automation

Solutions Architect / Mobile GIS Lead | *Pacífico Seguros*

Jan 2020 - Nov 2022 | Remote

- Designed end-to-end architecture for mobile GIS surveying platform
- Architected offline-capable mobile applications with backend synchronization
- Integrated satellite imagery systems, GPS sensors, and mapping services

Technologies: Android, Google Maps API, GeoJSON, REST APIs, GPS/Location Services

Software Development Lead | *Pacífico Seguros*

Jun 2012 - Dec 2019 | Remote

- Designed technical infrastructure including file servers and data processing pipelines
- Architected solutions serving multiple insurance carrier clients

- Implemented satellite imagery analysis systems for agricultural applications

Technologies: Python, QGIS, FreeBSD, Apache, Systems Design

Process Automation Architect | *Southern Peru Copper Corporation*

Oct 2006 - Dec 2006 | Toquepala, Peru

- Designed PLC alarm automation system integrating industrial controls with SMS escalation
- Architected communication layer between Modbus protocol and notification systems

Technologies: Modbus, PLC, Visual Basic, SMS integration, Industrial automation

CONTINUOUS LEARNING

- DevOps Bootcamp (6 months) - Starting 2026: CI/CD, Kubernetes, cloud infrastructure
- Data Engineering Course (9 months) - Starting 2026: Data pipelines, ETL, analytics

EDUCATION

Full Stack Software Developer | 4Geeks Academy | 2022 - 2023

Bachelor in Informatic Engineering | Universidad Católica San Pablo | 2000 - 2005
